# HAVEN TOTES FOOD DRIVE

At Pantano, we feed 105 low income, elementary school age children on the weekends. These children receive easy to prepare, nutritious food each week during the school year. Pantano does this in partnership with Haven Totes. Pantano relies on donations of food and monetary donations to help support this important community outreach program. Pantano currently serves two schools in the Tucson Unified School District and two schools in the Sunnyside School district. The children attending each of these schools come from the poorest of the poor neighborhoods in Tucson.

Please consider donating the following food items to help stock our food pantry with these child-size servings?
